BIBLE NURTURE AND READER SERIES

"If you train your children carefully until they are seven years old, they are already three-quarters educated." This quote recognizes the importance of the critical early years in molding a child's life. The influences of childhood become powerful, lasting impressions.

The type of schoolbooks used certainly affects the developing appetites of our children for reading material. We will not instill in them appreciation for godly values by feeding them frivolous nonsense. We hold the Bible to be the highest guide for life and the best source of training for our children. The Bible reveals God and His will. Proverbs 9:10 says, "The fear of the LORD is the beginning of wisdom: and the knowledge of the holy is understanding." It is important that our children are exposed to truth from the beginning of their learning experience.

For the student to be exposed to the truth of God's Word only in textbooks is not sufficient to give him the very best. It is necessary for the tutor, be he parent or teacher, to be firmly rooted in the Word of God and have the power of God's presence in His life. The Bible must be treasured as God's message to mankind. On that conviction this series is built, with the Scriptures as its very substance.

This book is designed as part of a series and will be most effective if so used. The grade four material includes the following books.

A *dictionary* tells us about words: how to pronounce them, how to spell them, what they mean, and other things.

An *encyclopedia* has words in alphabetical order the same as a dictionary, but it does not tell us so much about words. It has information about many persons and things. For example, if you wanted information about a whale, you would look in an encyclopedia. It would tell you how a whale looks, what it eats, where it lives, what its habits are, and many other interesting things.

Dictionaries and encyclopedias are not perfect. They are written according to men's ideas. They are changed as time goes on because men learn new things. Sometimes they have false information because the men who wrote them do not believe God.

The *Bible* is different. It is God's Holy Word. The Holy Ghost told men what to write; so we know that it is sure and without error. It tells us the story of God's people from Creation until nearly one hundred years after Jesus came to earth. It tells us God's will for His people.

Write *D* for dictionary, *E* for encyclopedia, or *B* for Bible to tell where you could find this information.
